EXAMINER'S REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest laminates comprising a heat-shrinkable selectively reflective multilayer birefringent dielectric film sandwiched between two substrate layers wherein: (1) wherein the film is non-wrinkling (claims 14, 49, 52, 57, 67); or (2) the film has the specified maximum and minimum shrinkage properties (claims 20, 59, 69), wherein "birefringent dielectric film" is interpreted as being a film composed of non-metallic layers. Specifically, AUSTRALIAN PATENT ABRIDGEMENT AU-B-70850/96 fails to disclose a selectively reflective optical component that is both birefringent and dielectric.

The Examiner does not agree that the term "about 3%" includes a shrinkage value of 3.887%, since a difference of over 29% (0.887%) is a substantial deviation from the upper limit value of 3% disclosed in the specification; however, the rejections (with respect to the shrinkage values) under 35 USC 112, first paragraph, are deemed moot in view of Applicant's Amendments filed 2/27/2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
